European Journal of Operational Research 52 (1991) 393–394
North-Holland

Contents Volume 52

1 Applied data envelopment analysis (*Invited Review*)
A. Boussofiane, R.G. Dyson and E. Thanassoulis
16 An OR contribution to the solution of the environmental problems in the Netherlands caused by manure (*Case Study*)
R.M. de Mol and P. van Beek
28 Stochastic programming in water management: A case study and a comparison of solution techniques
J. Dupačova, A. Gaivoronski, Z. Kos and T. Szántai
45 Designing an optimal production system with inspection
C.S. Tang
55 A multiobjective approach to evaluating and planning the allocation of inspection resources
R. Klimberg, C. ReVelle and J. Cohon
65 Fast primal and dual heuristics for the *p*-median location problem
M.E. Captivo
75 Polyhedral results for a vehicle routing problem
V. Campos, A. Corberan and E. Mota
86 Integer linear programming formulation for a vehicle routing problem
N.R. Achuthan and L. Caccetta
90 Pyramidal tours and the traveling salesman problem
J.A.A. van der Veen, G. Sierksma and R. van Dal
103 Stable strategies for processor sharing systems
M. Haviv
107 On the unimodality of present value distributions
T. Artikis and D. Jerwood
113 A note on scalarizing functions under changing sets of criteria
R. Vetschera
119 On the finiteness of the criss-cross method
K. Fukuda and T. Matsui
125 OR Software
ORSEP – Operations Research Software Exchange Program, *H.W. Hamacher (ed.)*
126 Short Book Reviews, *L.F. Gelders (ed.)*

129 Operational research and insurance (*Invited Review*)
C. Haehling von Lanzenauer and D.D. Wright
142 A transition planning method applied in a decision support system for potplant nurseries
A.P.H. Saedt, T.H.B. Hendriks and F.M. Smits
155 Myopic and stationary solutions for stochastic cash balance problems
M.J. Penttinen
167 Algorithms for a class of single-machine weighted tardiness and earliness problems
C.A. Yano and Y.-D. Kim
179 An optimal algorithm for the multi-item capacitated production planning problem
V. Lotfi and W.-H. Chen
194 A new heuristic for the *n*-job, *M*-machine flow-shop problem
J.C. Ho and Y.-L. Chang
203 An algorithm of internal feasible directions for linear integer programming
V. Vassilev and K. Genova
215 Linear production functions and the data envelopment analysis
K.-P. Chang and Y.-Y. Guh
224 EXTRA: An expert system for multicriteria decision making
C. Pasche
235 COAL: A new heuristic approach for solving the fixed charge problem-computational results
D. Wright and C. Haehling von Lanzenauer
247 ATDM with nonindependent sources
H. Bruneel
255 An elementary proof of Paelinck's theorem on the convex hull of ranked criterion weights
M.N.A.J. Claessens, F.A. Lootsma and F.J. Vogt

0377-2217/91/$03.50 © 1991 – Elsevier Science Publishers B.V. (North-Holland)

259 Modeling prison populations
M. Yablon
267 Application of production scheduling methods to external and internal audit scheduling
B. Dodin and K.H. Chan
280 Design of multi-stage screening procedures for a serial production system
K. Tang
291 The examination of worker cross-training in a dual resource constrained job shop
P.S. Park
300 Single and multiple period layout models for automated manufacturing systems
P. Kouvelis and A.S. Kiran
315 A dual algorithm for the economic lot-sizing problem
S.V. Hoesel, A. Wagelmans and A. Kolen
326 Effects of inflation and time-value of money on an inventory model with linear time-dependent demand rate and shortages
T.K. Datta and A.K. Pal
334 An application of linear goal programming to the marketing distribution decision
N.K. Kwak, M.J. Schniederjans and K.S. Warkentin
345 Goal programming problems with interval coefficients and target intervals
M. Inuiguchi and Y. Kume
361 A characterisation of the feasible set of objective function vectors in linear multiple objective problems
D.J. White
367 Optimal control of a queuing network system with two types of customers
T. Shioyama
373 The *k*-neighbor domination problem
S.-F. Hwang and G.J. Chang
378 A two-error-detecting arithmetical check system for decimal identification numbers
P. Stevens
382 Approximate articulation of preference and priority derivation – a comment (*Short Communication*)
M. Kress
384 OR Software, *H. Thiriez (ed.)*
386 Book Reviews, *L.F. Gelders (ed.)*
